### STAC 24 Hour Open Source Report

- Please see attached report.

# SITUATION SUMMARY

## Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Level 1	Level 1	Level 1

### Emergency Management Assistance Compact (EMAC)

In response to the City of Cleveland's request, Cal OES is coordinating the deployment of California Highway Patrol Officers to provide support during the Republican National Convention scheduled for 07/2016.

### Cal OES Inland Region

- [NSTR](#)

### Cal OES Coastal Region

### City of Oakland's EOC Activation

The City of Oakland's Emergency Operations Center (EOC) partially activated on 06/13/16 at 1700 hours in order to coordinate resources for large crowds and celebratory activities associated with the NBA Championships Finals Game at the Oracle Arena.

### Pride Parade, San Francisco, San Francisco County

San Francisco Department of Emergency Management (DEM) will be activated for the Pride Parade on 06/26/16 from 1000 - 2000 hours. Coastal Region staff will be present.

### Major Exercises in Coastal Region:

On 06/14/2016 a Port Reopening Seminar & Workshop will be conducted from 0730 – 1130 hours at Yerba Buena Island.

- The Port of San Francisco, in collaboration with the United States Coast Guard (USCG), the Army Corps of Engineers (USACE), the Department of Transportation Maritime Administration (MARAD), the Federal Emergency Management Agency (FEMA), the Department of Defense (DoD), and San Francisco Fleet Week (SFFW) are working together to create an exercise series to clarify the coordination process of reopening the San Francisco Bay and ports following a catastrophic disaster.
- The San Francisco Bay Regional Port Reopening Seminar and Workshop is the first discussion based exercise in a series that also includes a Table Top Exercise (TTX). The TTX will provide foundational information for the 2016 San Francisco Fleet Week Full Scale Exercise on 10/03/16. That exercise will include the delivery of commodities to San Francisco via a USN ship +96 hours post catastrophic event.

# SITUATION SUMMARY

## Cal OES Southern Region

### SPILL: 16-3581, Corona, Riverside County

On 06/14/16 at 0107 hours the California State Warning Center (CSWC) received notification of a brine release from Santa Ana Watershed Project Authority. The release was due to a contractor striking the “Brine Line” an 18 inch main, with their vehicle. At the time of reporting an estimated 125,000 gallons had released and impacts to waterways and drinking water was unknown.

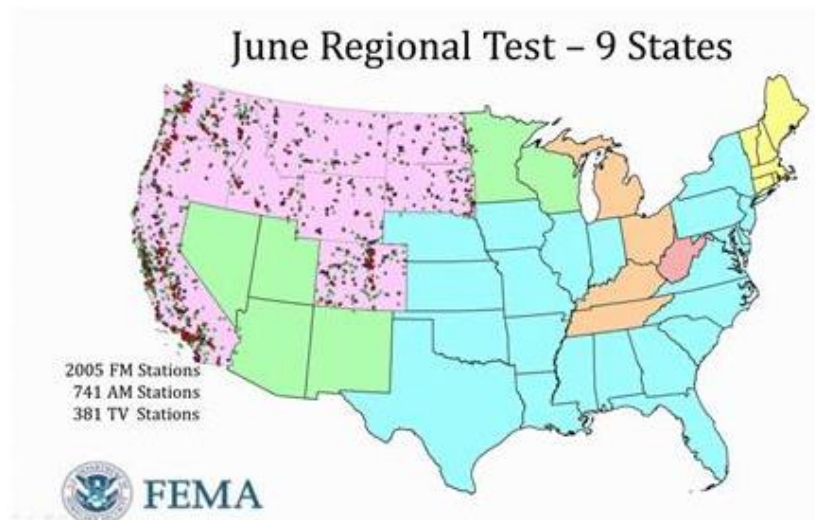

- An update from the reporting party received on 06/14/16 at 0209 hours confirmed impact to waterways. The main waterway, Temescal Creek is going to be impacted, Temescal Creek is a tributary of the Santa Ana River. It flows west in the Santa Ana River towards Prado Dam into Orange County.
- The contractor who struck the line has blocked the storm drains. And the reporting party is in the process of closing the valves to the “Brine Line”.
- As of 0402 hours on 06/14/16: The release is no longer a geyser and the asphalt is being removed to repair the pipe.
  - A vacuum truck is now on scene to recover as much of the brine as possible.
  - At daylight samples will be collected to see what the impact is.
  - The release is now contained.
  - The CSWC made all notifications per the Hazardous Materials SOP.

## SITUATION SUMMARY

**EAS Test, 06/15/2016**

On 06/15/16, FEMA will conduct the last in a series of multi-state tests of the new “National Periodic Test” EAS event code.

- This test will involve over 3,000 broadcast outlets in nine states drawn from FEMA Regions VII, XI and X.
- Starting at 1320 hours, Pacific time, subject to a minute or two of propagation delay through the IPAWS and EAS legacy “daisy chain”, broadcasters will sound the usual EAS tones followed by this message text:
  - “This is a National test of the Emergency Alert System. This is only a test. Broadcast and cable operators in your area have developed this system in voluntary cooperation with FEMA, the FCC and local authorities to keep you informed in the event of an emergency. If this had been an actual emergency an official message would have followed the alert tone. This concludes this National test of the Emergency Alert System.”
- This text was crafted to make this event sound as much like a regular Required Monthly Test message as possible. This is in preparation for the next full National EAS Test, currently slated for late September.
- In prior regional tests FEMA has cancelled the broadcast in states where there were ongoing events that might be confused with the test. FEMA says it will convene a conference call with NWS and state EM agencies shortly before the test to get a final go/no-go from them.

# WEATHER SYNOPSIS BY REGION

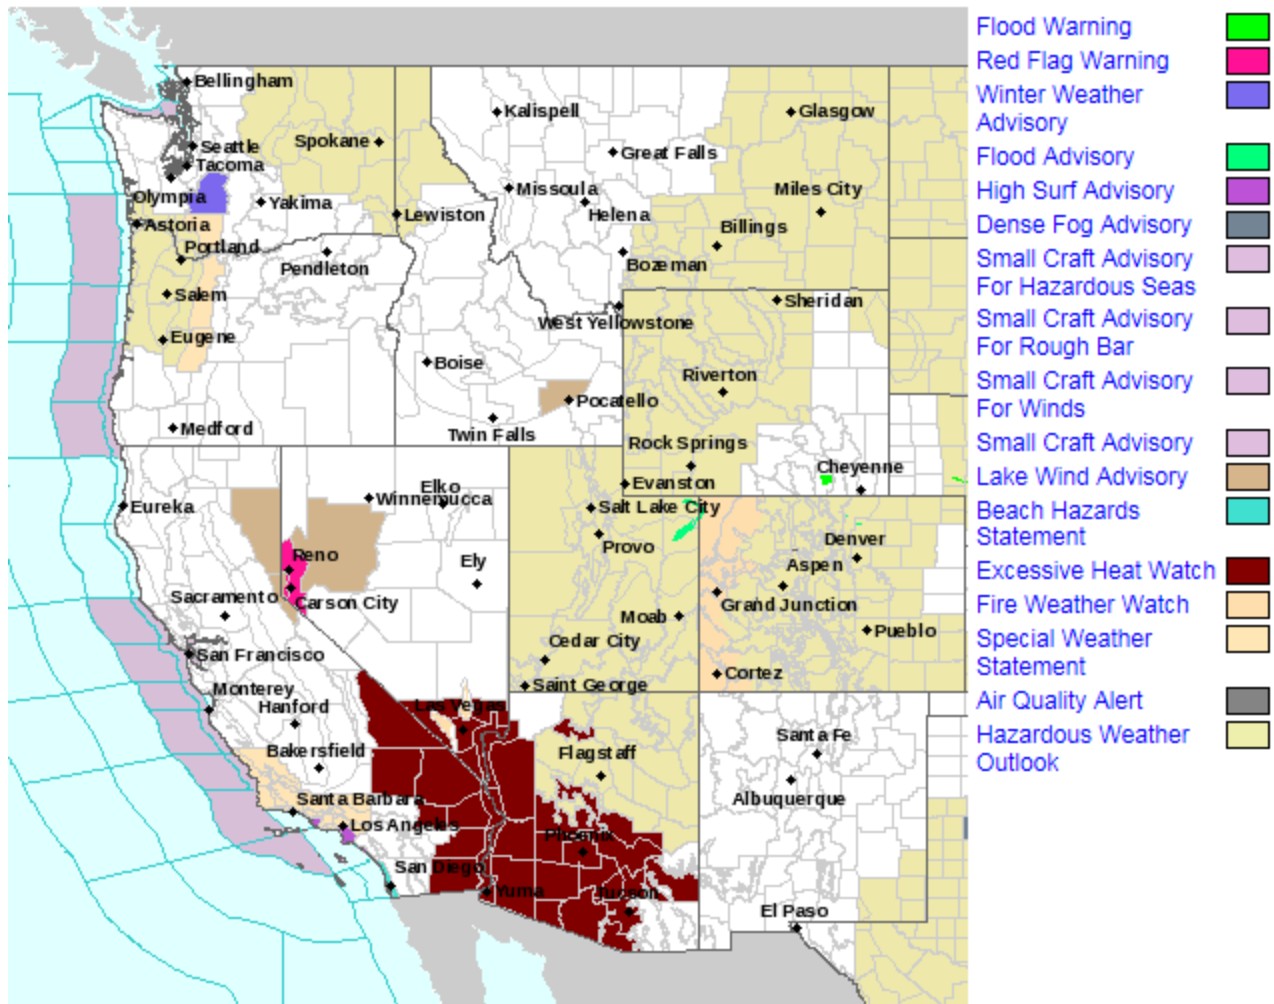

## **NORTHERN CALIFORNIA**

A low pressure system will drop far enough south today to produce noticeably cooler, cloudier and windier weather across the entire North Ops region. A few isolated showers are possible in far northern areas late Tuesday. There is a much better chance of showers and isolated thunderstorms mainly in northern portions of the region Wednesday through Thursday night. Areas to the south may see isolated activity then as well. High pressure will build in from the Desert southwest beginning over the weekend and produce a significant warming and drying trend that may last a week or so.

## **SOUTHERN CALIFORNIA**

The trough that brought showers and thunderstorms to parts of the region this past weekend is now moving to the east of Southern California. Weak high pressure will build into the district today with warmer and drier weather expected. Although still below normal, daytime highs will be in the upper 70s to upper 80s in the valleys, with low 90s in the San Joaquin Valley. In the mountains, highs this afternoon will be in the 60s to low 70s, except mid-50s to mid-60s in the Sierra. Winds will generally be light across Southern California during the next couple of days, but it will be breezy through the desert passes during the afternoon and evening hours. A deep trough will drop into the Pacific Northwest on Tuesday and will be just off the Northern California coast by Thursday afternoon. This will set up a broad southwest flow aloft over Southern California resulting in seasonable temperatures along with moderate onshore flow. The marine layer will likely remain deep enough to generate areas of night and morning low clouds and fog west of the coastal ranges most days this week. It will become breezy to locally windy along the central coast and throughout the desert areas starting mid-week. Strong high pressure will begin to build into Southern California into early next week with some of hottest weather of the season expected throughout the inland areas starting Saturday. Daytime highs Sunday and Monday may reach record levels. In addition to the heat, humidity values will drop into the single digits and teens away from the coast with poor overnight recovery. However, winds during this time are expected to be light and variable.

# CAL OES LAW ENFORCEMENT MISSIONS

## New Cal OES LAW Missions

- **2016-LAW-24284, 06/13/2016, 1925 hours:** The California State Warning Center (CSWC) received a notification from the International Emergency Rescue and Coordination Center (IERCC) regarding an emergency position indicating radio beacon (EPIRB) activation on the Pacific Crest Trail (PCT) at coordinates 36.814734 by -118.405323. A female hiker was experiencing altitude sickness. The Cal OES Law Duty Officer (LDO) contacted Sequoia Kings Rangers and provided info. LDO contacted emergency contact who provided additional medical information. **Update at 06/13/2016 at 2140 Hours:** Per Tom, SKNPS Ranger, they will arrange for a helicopter extraction in the morning. SKNPS will depart at 0700 with an ETA of 0830. LDO contacted the mother of the ill hiker and advised her of the update. **Mission Ongoing.**

## Ongoing Cal OES LAW Missions

- **2016-LAW-24270, 6/10/2016, 1409 hours:** Placer County Sheriffs' Office (PCSO) has requested a Side Scan Sonar to locate a drowning victim in Lake Tahoe with a search commitment of 2-3 days. A college student from UNR went missing Friday afternoon while Paddle boarding with a group of friends on the lake, with a surface water temperature of 48 degrees. Search area is offshore from Obexers Marina (Homewood area), Lake Tahoe with depths between 115-200 feet. LDO is attempting to secure this specialized team to assist PCSO with specific search dates to be determined based on weather forecasts. **Mission Ongoing.**

# **CAL OES MISSIONS**

## **Ongoing Cal OES Missions**

- **2016-Cal OES-21764** (EF-8): Waterman Incident. Environmental Health Specialist to serve as a Food Inspector. This mission is expected to be open until June. Mission Duration: Through 06/30/16. **Mission Ongoing.**
- **2016-IREOC-21748**: Tasking Cal Trans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months. **Mission Ongoing.**
- **2016-Cal OES-20822** (EF-8): Waterman Incident. Four Crisis Clinical Psychologists/Counselors to provide in-home and workplace trauma counseling, coping, and referrals with expertise in mass shootings/terrorism. Mission Duration: Through 06/30/16. **Mission Ongoing.**
- **2016-Cal OES-20816** (EF-8): Waterman Incident. One Mental Health Services Coordinator to assess short and long term needs, plan and implement intervention counseling strategies focusing on Post Traumatic Stress Disorder with staff, families, and others impacted. Mission Duration: Through 06/30/16. **Mission Ongoing.**
